FINAL ASSIGNMENT 7 : DEMONSTRATION OF THE GROUP PROJECT

PROJECT NAME : (TODOLIST WITH USER AUTHENTICATION)

Group Members :

Name	Entry Number	Tool-Kit
1. Santosh Kumar	P2009CS1016	PyQT4
2. Abhisaar Sharma	P2010CS1001	wxPython
3. Aditya Gujaral	P2010CS1005	Tkinter
4. Nitish Duggal	P2010CS1029	PyGTK

How to run :

Navigate to the Group13 folder and run the following command.

>> python main.py

The above command will show a window in PyQT4 ,with user authentication.

Enter username : csl306 and password : iitropar to login.

You can choose the GuestLogin Button to enter the GUI as Guest.

You have to choose the choices from the radiobuttons ,which toolkit you want to use to create the new GUI.

On choosing a Toolkit and successful login either by Guest Login and User Login, you will get a new GUI in the chosen toolkit.

The folder contains total of 6 files.

1. main.py : File containing Demo Program for the user authentication
2. AnyGUI_API.py : file containing the Demo program for Chosing a GUI among the four GUI and creating the widgets
3. PyQT4_API.py : API for the widgets in PyQT4
4. tkGUI_adi.py : API for the widgets in Tkinter
5. wxabhi.py : API for the widgets in WxPython
6. GTK_API.py : API for the widgets in PyGTK
